Mines and Minerals

fever heat.

J. E. Collord is running the holst at the Wicke mine near Hilisboro.

J. D. Richards, of Gailup, spent yesterday in the city, going south last night, bound for the Capitan country, where gold has recently been discov-

to go to work on the Senate Bob-Tail mine at Elizabethtown,

bought three claims in the gold field near Tularosa at \$100 each and in three bours afterward were offered \$250 per claim and refused the offer.

There is considerable excitement at Lamy at present, caused by a reported strike of fine copper ore on the Lamy grant owned by the Onderdonk Live Stock company. There is a shaft sixty feet deep and they are in good ore, They also have a fine body of coal,

Foreman Fricke, of the Mamie Richmond mine, informs the Hillsboro Advocate that large bodies of ore are be ing opened up in that property. With the opening up of new ground and the renovating of many of the old workings the mine will become a good pro-

The Miller Mines Development company is making an effort to manufac ture a number of commercial products out of the white sands of Otero coun-ty. Lime and plaster of Paris have been the subjects of experiment so far and they are claiming a good product. They claim it makes good brick, paying chalk, etc.

The Holbrook Argus says: B F Jackson and Pete Pemberton left on Thuursday morning for the northern Gia country, where Mr. Jackson has extensive mining interests. They were accompanied on their trip by Messra. Ferry and Kronke, Denver mining ex-From all reports northern Gla county is going to be one of the richest mining sections in Arizona.

The Cerrillos Register says: Judge Nets has brought some fine large specimens of coal in from his new mine and has made a test of its cooking qualities which was very satisfactory. property should be a great addition to the business of Cerrillos, and will come in capecially good play in furnishing fuel for the town, if the fire in the mines at Madrid should prevent their being opened for any length of tion of a concentrator for the treat-

The Prosper Mining company of Sierra county commenced preliminar. work on their properties last week Upon advice from his company that a new engine and boiler had been shipped Manager Hirsch immediately went to the mines and proceeded to put everything in shape to receive the machinery and put it in place when it ar-It is understood that one Prosper people expect to go down about ,000 feet as fast as possible.

A rich strike is reported from Stein's Pass in Grant county. It was made north of the Volcano, and on the main ledge of the camp, which has produced so much ore. When doing the assess ment work on the property, just before Christmas, a streak of high grade ore was encountered about fifteen inches wide, which assayed 960 ounces in silver, and three and a traction ounces About two tons of this high

be ready for running before the close of the present mouth. In the region of the Malachite where, by the way, the mili is situated, every appearance of a small village is presented to view, which, if everything goes as expected and planned, will in the near future claim, instead of "Aberdeen Camp." some such name as "Aberdeen City.

Manager Kasser, of the Hillsboro Gold Mining and Milling company, is Made Within Eight Miles of Town of in high feather these days over the opening up of a four foot vein of ore and mineralized matter in the Little Ready Pay mine, says the Advocate. The ore is a good milling proposition and seventy-five tons have already been taken out and hauled to the Porter mill for treatment. Assay returns give this ore a value of \$133.60 in gold, while two feet of the ore in the vein is expected to give an average of \$40 to the

The Raton Range says: F. L. Mulkey, of the Thelma Mining company of Baldy, who has been in the city a few days this week, says the mill of his company will be started to running within the next ten days. A large quantity of good grade ore is now in bins ready for treatment, and the force of men who have been doing a great deal of "dead" work and development during the past few months will now be put to work getting out ore to keep their mill running. About 20 tons per day will be milled.

The Sandy" vein was cut in the Little Charite Tunnel, in the Cooney district, a few days since about 250 feet from entrance. The vein is four feet wide, all ore, with a quartzite (so called) foot wall and blue andesite hanging wall. This is an instance of improvement with depth, since lode on the surface no signs of being a rower and showed no signs of being a contact vein, so the members of the Mogollon Gold & Copper company nave reason to seel clated. It is reported they have also encountered good ore in the main Florida tunnel.

The Hillsbooro Advocate says: Mr and Mrs. W. E. Gilpin left for Des Moines. Mr. chipin is president and general manager of the Las Animas Gold Mining company and has been here for some time looking after the development of the company's proper-ty at the placers. Mr. Glipin is very much pleased with the showing of ore in the mines, at the depth of 200 feet. The ore, we understand, is high grade gold-copper. We are also informed hat Mr. Gilpin will, while east, pur chase a complete steam hoisting outfit to be used at the mines, and that work has been temporarily suspended until its arrival.

The Wilson Mining company, of Stein's Pass, has just received from Pittsburg their first consignment of

Mining excitement a Tularosa is at four-inch standard from pipes. Up-werd of five miles of it will be laid and connections made between their water sepply and the mill by March and then silver bullion will be a steady ship-ment. A force of men are employed at present in taking out the good ore values found in all levels and putting it upon the dump preparatory to starting up the mut. This camp has the promhis job with the express company in he one of the best in southwest New Trinidad and left the first of the week Mexico. The ores are

value carrying gold. A correspondent from Pines Altos Dr. Pulliam and Attorney Hutchison to the Silver City Enterprise says: As is well known. Pinos Aitos has been a steady gold producing camp for many years and there is every reason to be lieve that we are entering upon a period of greater prosperity than we have ever known before. Men who were formerly working for wages are now prospecting or working claims of their own. Many excellent prospects are reported, and the mines on the west side of the mountains, and the Mountain Key give promise of soon becoming large producers. Two concentrators and one mill are running full enpacity every day and it has been hinted that the company mines may be in operation again before a great while. The mountains around Pinos Altos have much gold to be given up and our citizens will never rest until they secure more of it.

REVIVING THE OLD CAMPS.

Rail Extensions in New Mexico Reach
Long Idle Mines.
A correspondent writing to the Den-

News from Silver City, says: Galleyville, formerly a prominent mining camp, has been resurrected,

and the name of the postoffice changed to Paradise. It is making regular ship-ments of ores and as soon as the Bisroad is running ore will be satpped by that road, lessening the haul by fourteen miles. After lying dead so many years, tals camp promises to be leading one.

The Colorado Fuel & Iron company of Fierro is now making a daily shipment of fifteen car loads. A new load-ing machine has been ordered, which is a great labor-saving device, and the

output will be thereby increased. California capitalists are backing a plan to enlarge the smelter at Lordsburg. The future outlook justicles improvements and new reduction works will be well supported.

The success of Richard Lee's inverment of low prades ores is being watched with great interest by mine operators at Pinos Altos. That it is a success is proven by the fact that the tailings which have been worked five times by other concentrators are being made to pay. The advantage may also be seen that while other machines handle only about one ton per hour, the new inventior handles five This will give to Pinos Altos new life. as the base ores in the mountains can be successfully worked.

The seven claims owned by the Michigan-New Mexico Copper company in the Burros are being rapidly developed and a car load of ore is now on the dump ready for shipment. Assays show an average value of 11 per cent. copper and \$5.50 in gold and silver. The results are more than satisfactory to those in charge, three foot veins

of ore being common, and increasing in size and value with depth.

In the Virginia district the Arizona for shipment.

Work has been resumed on the Aberdeen Copper company's concentration plant, near Lordsburg. The machinery is now being placed and no doubt will

flow of gas has been struc Santa Rosa, Guadalupe county, which burns above the mouth of the well intil extinguished. A boiling sound asues from the well and a flow of oil is expected soon. These lands adjoin those owned by the Great Western Oil company of New Mexico.

RICH GOLD STRIKE.

Tularosa.

A rich gold strike was made last Friday, eight miles northeast of Tu-larosa, by Frank P. Clark, A. L. Douglass and Fred Gritzmacher. The news spread like fire and prospectors are coming in from Lincoln, Socorro and Dona Ana counties and staking claims. Tularosa people in a body went out to the locality and staked off claims.

Some of the rock brought into town conglomerate rock-was full of gold. which could be seen plainly without a glass and when panned out showed a long string of free gold and small nug-A number of claims have been taken up by different parties and all of them show free gold.

The owners aer working their claims. The claims are located four miles from the railroad.—Tularosa Democrat.

O'Keefe's Bonanza.

The Oasis, Nogales, has the following item regarding the Sonora Milling

and Mining company: Mr. Saxhang, who returned from Tubutama reports that one of the mines of the Sonora Milling and Mining company, a good flow of water has been struck, which saves hauling water a

long distance. Monday President Con O'Keefe, of the Sonora Milling and Mining com-pany, wired John Dessart, treasurer of the company, at Nogales, that the ore body in La Fortuna had greatly improved, and that 500-ounce ore is now being taken out. The new smelting furnace will be shipped the first week in February and will be erected and blown in before the mon.a closes, Mr. O'Keefe wired also that he had bought for the company a copper mine near at hand, the ore from which will be

Cochiti Mining Notes.

Walter Young, an employe in the cyanide department of the mill at Alcomarle, returned to Madrid.

The most pestiferous individual in any community is the man who never does anything for his town or neighborhood, and is always trying to hinder the man who does.

V. Clark, who is well and favorabiy known in Bland, having at one time had charge of the Bland mill. came up from Albuquerque on a short business trip.

Andy Horn, who lives three miles below Bland, was in town Mr. Horn is one of our most progressive citizens as is evidenced by the fact that he is willing to make almost any kind of a concession to the Navajo company to induce them to put in a cyanide mill in

Col. Wm. Jenks, the veteran mining man of this section, came up from Albuquerque and remained a couple of days looking after the interests of the Golden Cochiti Tunnel company. which he is the superintendent. This company has the most unique tunnel ever possessed, and under the management of Mr. Jenks the tunnel is bound to go through.—Bland Herald.

RAILROAD IMPROVEMENTS.

The Santa Fe Is Double Tracking Its Line Over the Raton Mountains. It does not look as if the Santa Fe Railway company has any intention at present of giving up its Raton tunnel route from Colorado into New Mexico, as has been rumored from time to time. A large construction force has almost completed the double tracking of the route from Morley, Colo., to the tunnel on the Colorado side. Bridges and viaducts have been widened and steel is supplanting wood. Eighty-pound rails are being laid and the ballast is small hard stone, making a very substantial and smooth roadhed. Con-siderable filling had to be done. In cutting away additional earth and rock in the cuts to make room for the second track, extensive strata of coal

ally an inexhaustible supply of coal. COMMITTED SUICIDE.
